Experienced Environmental Planner with a specialization in waste management and sustainability, offering over 9 years of comprehensive experience in developing and implementing waste reduction strategies. Proficient in conducting waste audits and assessments to identify opportunities for improved resource efficiency and environmental sustainability. Demonstrated ability to engage with diverse stakeholders, including governmental agencies, businesses, and community organizations, to promote sustainable waste practices.

💼 WORK EXPERIENCE

Waste Management Planner   2020-2023

Urban Waste Solutions

- Developed and implemented waste reduction initiatives for urban municipalities.
- Conducted waste audits to identify areas for improvement in resource management.
- Engaged with community stakeholders to promote awareness of sustainable waste practices.
- Collaborated with local businesses to develop recycling programs.
- Utilized data analysis to track waste diversion rates and report outcomes.
- Presented findings to city councils to advocate for policy changes.

Environmental Consultant   2019-2020

Sustainability Advisors

- Conducted assessments of waste management systems for various clients.
- Provided recommendations for sustainable waste practices to reduce environmental impacts.
- Developed educational materials for businesses on recycling and waste reduction.
- Engaged with local communities to address waste management concerns.
- Monitored compliance with waste management regulations.
- Reported on project outcomes to stakeholders and clients.

★ ACHIEVEMENTS

- Successfully implemented waste reduction programs that diverted over 1,000 tons of waste annually.
- Received recognition for innovative recycling initiatives in local government.
- Published articles on waste management best practices in industry publications.
