WORK EXPERIENCE

Research-Based Environmental Educator

2020-2023

Institute for Environmental Studies

- Designed curriculum focused on integrating scientific research into environmental education.
- Conducted workshops that emphasize the importance of data-driven decision making.
- Collaborated with researchers to develop educational content based on current studies.
- Engaged students in hands-on activities that promote scientific inquiry.
- Monitored and evaluated program effectiveness through pre-and post-assessments.
- Published research findings in educational journals to enhance resource availability.

Environmental Science Instructor

2019-2020

City Community College

- Developed and taught courses on environmental science and sustainability.
- Implemented innovative teaching strategies to enhance student engagement.
- Conducted field studies to provide practical learning experiences.
- Evaluated student progress and provided constructive feedback.
- Collaborated with faculty to integrate environmental topics across disciplines.
- Organized community events to promote environmental awareness and action.

ACHIEVEMENTS

- Published multiple articles in leading environmental journals.
- Secured funding for research projects focused on sustainability education.
- Recognized for excellence in teaching with a faculty award for innovative curriculum design.
