EDUCATION

**BACHELOR OF SCIENCE IN ECOLOGY,
UNIVERSITY OF WASHINGTON**

ACHIEVEMENTS

- Successfully restored over 100 acres of wetland habitat, enhancing local biodiversity.
- Awarded the Conservation Leadership Award for outstanding contributions to habitat restoration.
- Increased community participation in conservation programs by 50% through outreach initiatives.

Innovative Environmental Protection Specialist with a strong foundation in ecological restoration and biodiversity conservation. Over 9 years of hands-on experience in executing projects aimed at restoring natural habitats and promoting environmental health. Proven track record in collaborating with interdisciplinary teams to develop and implement effective restoration strategies. Skilled in conducting ecological assessments, utilizing advanced ecological modeling tools, and engaging with local communities to foster stewardship.

WORK EXPERIENCE

ECOLOGICAL RESTORATION PROJECT MANAGER

Habitat Restoration Inc.

2020 - 2025

- Managed ecological restoration projects aimed at restoring wetlands and forests.
- Conducted field assessments to evaluate the health of ecosystems.
- Collaborated with local volunteers to engage the community in restoration efforts.
- Developed restoration plans that improved biodiversity indices by 20%.
- Utilized GIS tools to map restoration sites and monitor progress.
- Authored grant proposals that secured funding for ongoing restoration activities.

ENVIRONMENTAL EDUCATOR

Wildlife Conservation Society

2015 - 2020

- Designed and implemented educational programs focused on wildlife conservation.
- Conducted workshops for schools and community groups to raise awareness about biodiversity.
- Collaborated with local organizations to promote conservation initiatives.
- Developed educational materials to support community engagement.
- Evaluated the effectiveness of educational programs through participant feedback.
- Presented findings at regional conservation conferences.
