### SKILLS

- Air Quality Monitoring
- Data Analysis
- Public Health
- Policy Advocacy
- Research Methodology
- Communication Skills

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

**MASTER OF ENVIRONMENTAL POLICY,  
YALE UNIVERSITY**

### ACHIEVEMENTS

- Led a project that resulted in a 25% reduction in air pollution levels in targeted urban areas.
- Published influential research on the health impacts of air pollution in a leading journal.
- Recipient of the 'Environmental Advocacy Award' from the National Air Quality Association.

### WORK EXPERIENCE

#### AIR QUALITY SPECIALIST

Clean Air Initiative

2020 - 2025

- Conducted comprehensive air quality assessments in urban areas affected by industrial emissions.
- Developed monitoring programs to track pollutant levels and trends over time.
- Collaborated with health departments to analyze the impact of air quality on public health.
- Utilized statistical software to interpret data and present findings to stakeholders.
- Authored reports that informed policy decisions on air quality standards.
- Presented research at national conferences, contributing to the dialogue on air pollution control.

#### ENVIRONMENTAL POLICY ANALYST

Environmental Defense Fund

2015 - 2020

- Analyzed existing air quality regulations and provided recommendations for improvements.
- Worked with community organizations to advocate for stricter air quality standards.
- Conducted research on the economic impacts of air pollution on local communities.
- Developed educational materials to raise public awareness about air quality issues.
- Collaborated with state and federal agencies to promote effective environmental policies.
- Contributed to grant proposals that secured funding for air quality research initiatives.
