## SKILLS

- Environmental Toxicology
- Risk Assessment
- Regulatory Compliance
- Project Management
- Waste Management
- Team Collaboration

## EDUCATION

**M.S. IN ENVIRONMENTAL TOXICOLOGY,  
UNIVERSITY OF NORTH CAROLINA**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Achieved a 30% reduction in waste generated during drug production processes.
- Recognized for outstanding contributions to environmental safety initiatives.
- Published 4 influential papers on environmental impacts of pharmaceuticals.

# Michael Anderson

## ENVIRONMENTAL RISK MANAGER

As an Environmental Risk Scientist with over twelve years of experience in the pharmaceutical sector, I specialize in assessing the environmental impacts of drug development and manufacturing processes. My role involves identifying potential environmental hazards and developing strategies to mitigate risks, ensuring compliance with environmental regulations while maintaining product integrity. I have collaborated with cross-functional teams to implement sustainable practices that reduce waste and enhance safety.

## EXPERIENCE

### ENVIRONMENTAL RISK MANAGER

PharmaCare Solutions

2016 - Present

- Led environmental risk assessments for new drug development projects.
- Collaborated with R&D teams to ensure compliance with environmental regulations.
- Implemented waste reduction strategies that decreased disposal costs by 20%.
- Conducted training on environmental safety protocols for staff.
- Developed documentation for regulatory compliance submissions.
- Monitored environmental performance metrics and reported findings to management.

### ENVIRONMENTAL TOXICOLOGIST

BioPharma Research Group

2014 - 2016

- Assessed environmental impacts of chemical compounds used in drug formulation.
- Conducted laboratory tests to evaluate toxicity levels of substances.
- Collaborated with regulatory agencies on compliance and safety standards.
- Published research findings on environmental risk management in pharmaceuticals.
- Participated in cross-departmental teams to address environmental challenges.
- Provided expertise on environmental regulations to ensure product safety.
