SKILLS

- Software Development
- Environmental Compliance
- Data Analysis
- Algorithm Development
- User Testing
- Quality Assurance

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, UNIVERSITY OF ILLINOIS

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Led a project that resulted in a 15% reduction in compliance reporting time.
- Contributed to a software application recognized for enhancing user experience.
- Received commendation for innovative solutions in environmental data management.

Michael Anderson

ENVIRONMENTAL SOFTWARE ENGINEER

Strategic Environmental Software Engineer with a strong foundation in software development and environmental science. Expertise in crafting software solutions that promote sustainability and compliance within diverse sectors. Proven ability to analyze environmental data and develop algorithms that enhance data-driven decision-making. Recognized for implementing innovative features that improve user interaction and engagement with environmental platforms.

EXPERIENCE

ENVIRONMENTAL SOFTWARE ENGINEER

EcoVision Technologies

2016 - Present

- Designed software for monitoring environmental compliance for industrial clients.
- Developed algorithms to analyze pollution data and generate reports.
- Collaborated with regulatory agencies to ensure software compliance.
- Facilitated user acceptance testing to gather feedback for improvements.
- Engaged in continuous integration practices to enhance software quality.
- Provided ongoing support and maintenance for deployed applications.

SOFTWARE DEVELOPER INTERN

GreenWave Solutions

2014 - 2016

- Assisted in the development of a web application for environmental impact assessments.
- Conducted research on best practices for environmental software development.
- Participated in team meetings to discuss project progress and challenges.
- Helped in the creation of user documentation for software tools.
- Supported quality assurance testing to identify bugs and issues.
- Contributed to the development of a prototype for a new software feature.
