WORK EXPERIENCE

Research Veterinarian

2020-2023

Equine Infectious Disease Institute

- Conducted clinical trials evaluating new vaccines for equine infectious diseases.
- Analyzed data to assess the efficacy of treatments, contributing to improved health outcomes.
- Collaborated with multidisciplinary teams to publish research findings in peer-reviewed journals.
- Presented research at national veterinary conferences, enhancing industry knowledge.
- Developed educational materials on infectious disease prevention for horse owners.
- Monitored compliance with ethical standards in research practices.

Veterinary Intern

2019-2020

Equine Specialty Clinic

- Assisted in diagnostic procedures and treatment plans for hospitalized equine patients.
- Gained valuable experience in emergency medicine and critical care.
- Maintained detailed records of patient care and treatments administered.
- Participated in client education initiatives regarding disease prevention and health maintenance.
- Supported research projects aimed at improving equine health standards.
- Assisted in training veterinary students and interns in clinical procedures.

ACHIEVEMENTS

- Published multiple research articles in top veterinary journals on equine health.
- Received 'Best Research Presentation' award at the National Veterinary Conference.
- Contributed to the development of a widely adopted vaccine protocol for equine diseases.
