🎓 EDUCATION

Bachelor's in Computer Science

University of Technology

2016-2020

⭐ SKILLS

- Machine Learning
- Data Visualization
- Python
- Research Skills
- AI Ethics
- Team Collaboration

🗣️ LANGUAGES

- English
- Spanish
- French

As a junior Explainable AI Researcher, I have developed a keen interest in the field of AI and its applications in various industries over the past 3 years. My academic background in computer science, coupled with hands-on experience in projects, has equipped me with the necessary skills to contribute to the development of interpretable AI models.

💼 WORK EXPERIENCE

AI Intern   2020-2023

Data Insights LLC

- Assisted in developing visualizations for machine learning model outputs.
- Conducted literature reviews on explainable AI techniques to support research initiatives.
- Collaborated with data scientists to improve model transparency.
- Participated in team meetings to discuss AI project developments.
- Developed documentation for AI processes and methodologies.
- Helped create training materials for stakeholders on AI interpretability.

Research Assistant   2019-2020

University of Tech

- Supported research projects focused on AI interpretability.
- Analyzed datasets to identify trends relevant to explainable AI.
- Assisted in preparing research papers for publication.
- Participated in workshops to enhance understanding of machine learning.
- Collaborated with faculty on projects exploring ethical AI.
- Presented findings at student research conferences.

⭐ ACHIEVEMENTS

- Received the 'Outstanding Intern' award for contributions to AI projects.
- Contributed to a publication on AI interpretability in student journals.
- Presented research findings at the Undergraduate Research Symposium.
