EXPERTISE SKILLS

- Automotive Fabrication
- Process Automation
- Team Leadership
- Quality Management
- Sustainable Practices
- Prototyping

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Industrial Engineering, Technical Institute

MICHAEL ANDERSON

FABRICATION SUPERVISOR

Dynamic Fabrication Supervisor with a strong emphasis on innovative manufacturing solutions within the automotive industry. Expertise encompasses managing full-cycle fabrication processes, from initial design to final product delivery, while consistently achieving high levels of operational efficiency. Demonstrated success in leading multi-disciplinary teams, fostering an environment of creativity and excellence. Skilled in the application of modern fabrication technologies, including robotics and automation, to optimize production capabilities.

PROFESSIONAL EXPERIENCE

AutoFab Technologies

Mar 2018 - Present

Fabrication Supervisor

- Directed the fabrication of automotive parts, achieving ISO/TS 16949 certification.
- Introduced automation solutions that improved production efficiency by 40%.
- Supervised a diverse team, emphasizing skill development and team cohesion.
- Collaborated with R&D to develop prototypes for new vehicle models.
- Monitored compliance with environmental regulations and sustainability initiatives.
- Implemented a continuous improvement program that reduced cycle times significantly.

NextGen Auto Parts

Dec 2015 - Jan 2018

Lead Fabrication Engineer

- Led engineering initiatives to enhance fabrication processes and reduce costs.
- Designed and tested new fabrication equipment to optimize production workflows.
- Coordinated with supply chain to ensure material availability and quality.
- Trained new hires on safety protocols and operational procedures.
- Evaluated and selected suppliers based on quality and reliability metrics.
- Participated in strategic planning sessions to align engineering goals with business objectives.

ACHIEVEMENTS

- Decreased production costs by 20% through innovative process redesign.
- Recognized as 'Manager of the Month' for outstanding operational performance.
- Successfully led a project that introduced a new product line, achieving record sales.
