EXPERTISE SKILLS

- custom fabrication
- CNC operation
- automotive manufacturing
- teamwork
- quality inspection
- process improvement

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Diploma in Automotive Fabrication, Trade School, 2018

MICHAEL ANDERSON

FABRICATION SPECIALIST

Innovative Fabricator with a strong background in custom fabrication for the automotive industry. Expertise in utilizing state-of-the-art fabrication techniques and advanced machinery to produce high-quality automotive components. Demonstrated ability to work collaboratively with design teams to create innovative solutions that meet customer specifications. Proficient in various metalworking processes, including cutting, bending, and welding, ensuring a seamless transition from design to production.

PROFESSIONAL EXPERIENCE

Auto Innovations Inc.

Mar 2018 - Present

Fabrication Specialist

- Fabricated custom automotive parts according to detailed specifications.
- Collaborated with design engineers to refine prototypes and improve manufacturability.
- Operated advanced CNC equipment to achieve precise measurements.
- Conducted quality inspections to ensure compliance with automotive standards.
- Streamlined fabrication processes, reducing lead times by 15%.
- Maintained accurate records of production metrics for performance analysis.

Speedy Fabrication Co.

Dec 2015 - Jan 2018

Junior Fabricator

- Assisted in the fabrication of automotive components, adhering to quality guidelines.
- Learned to operate various hand and power tools safely and effectively.
- Participated in team meetings to discuss project progress and challenges.
- Helped maintain a clean and organized work environment to promote safety.
- Documented daily tasks and production outputs for future reference.
- Supported senior fabricators in complex assembly tasks.

ACHIEVEMENTS

- Improved fabrication accuracy, resulting in a 30% decrease in rework.
- Received recognition for outstanding project contributions during team presentations.
- Contributed to a project that won the Innovation in Design Award.
