#### SKILLS

- Automation design
- Troubleshooting
- Project management
- Data analysis
- Communication
- Continuous improvement

#### LANGUAGES

- English
- Spanish
- French

#### EDUCATION

**BACHELOR OF SCIENCE IN ENGINEERING, UNIVERSITY OF ENGINEERING, 2017**

#### ACHIEVEMENTS

- Improved production efficiency by 12% through automation projects.
- Recognized for outstanding contributions to team objectives.
- Contributed to a successful product launch with automated processes.

#### WORK EXPERIENCE

##### FACTORY AUTOMATION ENGINEER

Precision Automation Company

2020 - 2025

- Engineered automation solutions that reduced production time by 10%.
- Participated in the selection of new automation technologies.
- Conducted training sessions for operators on new systems.
- Worked closely with quality assurance to ensure compliance.
- Performed system upgrades to enhance functionality.
- Analyzed performance data to identify areas for improvement.

##### AUTOMATION ENGINEER

Global Manufacturing Inc.

2015 - 2020

- Assisted in the design of automated production lines.
- Supported troubleshooting and maintenance of automation equipment.
- Documented system configurations and operational procedures.
- Participated in continuous improvement projects.
- Monitored production metrics and reported findings.
- Collaborated with engineers to enhance system performance.
