## WORK EXPERIENCE

**Agricultural Data Analyst  Green Fields Agriculture**                                            *Jan 2023 - Present*

- Conducted comprehensive analyses of crop yield data to identify trends and inform strategic decisions.
- Developed and maintained databases to manage agricultural information efficiently.
- Collaborated with farmers to implement precision farming techniques using data-driven insights.
- Utilized GIS technology to map and analyze land use and soil health.
- Presented findings to stakeholders, enhancing understanding of data implications.
- Trained team members on data collection methods and software tools, improving overall data accuracy.

**Farm Operations Coordinator  Harvest Innovations**                                            *Jan 2020 - Dec 2022*

- Managed operational workflows to ensure efficient farm processes and resource allocation.
- Implemented new tracking systems that reduced waste by 20%.
- Oversaw the integration of technology in daily farming practices, enhancing productivity.
- Coordinated with agricultural scientists to optimize crop rotation strategies.
- Assisted in budget management and financial forecasting for farm operations.
- Led workshops on sustainable farming practices for local farmers.

---

## EDUCATION

**Master of Science in Agricultural Economics, University of Agriculture**                  *Sep 2019 - Oct 2020*

---

## ADDITIONAL INFORMATION

- **Technical Skills:** Data Analysis, GIS Technology, Agricultural Management, Project Coordination, Team Leadership, Sustainable Practices
- **Awards/Activities:** Developed a data-driven model that increased crop yields by 15% over two seasons.
- **Awards/Activities:** Received the 'Innovator of the Year' award for contributions to farm efficiency.
- **Awards/Activities:** Successfully trained over 50 farm staff in data collection and analysis techniques.
- **Languages:** English,  Spanish,  French
