EDUCATION

Bachelor of Science in Software Engineering

University of Florida
2016-2020

SKILLS

- Mobile applications
- Usability testing
- Software development
- User feedback
- Programming languages
- Cross-functional collaboration

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Software Engineer

2020-2023

FarmSmart Technologies

- Designed and developed mobile applications for farm management.
- Collaborated with agricultural specialists to determine software requirements.
- Conducted usability testing to refine application features.
- Implemented feedback mechanisms to improve user satisfaction.
- Utilized programming languages such as Python and Java for development.
- Worked closely with cross-functional teams to ensure project success.

Intern Software Developer

2019-2020

AgriTech Corp

- Assisted in the development of agricultural software tools.
- Participated in code reviews to enhance software quality.
- Conducted research on emerging agricultural technologies.
- Supported the documentation process for software features.
- Gained hands-on experience in software testing and debugging.
- Engaged with users to gather feedback for product improvements.

ACHIEVEMENTS

- Developed a mobile app that improved farm management efficiency by 20%.
- Recognized for outstanding performance during internship.
- Contributed to a project that won a regional innovation award.
