EXPERTISE SKILLS

- Aquaculture nutrition
- Feed formulation
- Research methodologies
- Data analysis
- Client engagement
- Sustainable practices

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Aquaculture, Coastal University, 2017

MICHAEL ANDERSON

AQUACULTURE FEED FORMULATION SPECIALIST

Dynamic and results-oriented Feed Formulation Specialist with over 5 years of experience in the development and optimization of feed formulations for the aquaculture sector. Expertise encompasses a comprehensive understanding of aquatic nutrition, ingredient sourcing, and formulation strategies that enhance growth rates and feed conversion ratios in fish and shellfish. Proven ability to conduct research and trials that drive innovation in feed technology and sustainability.

PROFESSIONAL EXPERIENCE

Oceanic Nutrition Ltd.

Mar 2018 - Present

Aquaculture Feed Formulation Specialist

- Developed specialized feed formulations for various aquaculture species.
- Conducted feeding trials to assess growth performance and feed efficiency.
- Collaborated with researchers to innovate sustainable feed solutions.
- Monitored ingredient quality and consistency for optimal formulations.
- Presented research findings at international aquaculture conferences.
- Engaged in client consultations to tailor feed solutions to specific needs.

Marine Research Institute

Dec 2015 - Jan 2018

Research Assistant in Aquaculture Nutrition

- Assisted in research projects focused on fish feed formulation.
- Conducted laboratory analyses of feed ingredients for nutritional content.
- Supported data collection and analysis for publication in scientific journals.
- Participated in field trials to evaluate new feed products.
- Maintained accurate records of research activities and results.
- Collaborated with academic partners on joint research initiatives.

ACHIEVEMENTS

- Increased feed conversion ratios by 10% through innovative formulations.
- Contributed to a research paper published in a leading aquaculture journal.
- Recognized for developing a new line of sustainable aquaculture feeds.
