EDUCATION

Ph.D. in Animal Nutrition

University of Livestock Sciences
2016-2020

SKILLS

- Ruminant nutrition
- Feed formulation
- Research methodology
- Data analysis
- Technical support
- Collaboration

LANGUAGES

- English
- Spanish
- French

I am a seasoned Feed Science Researcher with a focus on the nutritional needs of ruminants. My expertise encompasses the development and evaluation of feed formulations aimed at enhancing the health and productivity of cattle and sheep. I employ a research-driven approach to assess the efficacy of various feedstuffs and their impact on animal performance.

💼 WORK EXPERIENCE

Ruminant Nutrition Researcher
2020-2023

Cattle Nutrition Institute

- Conducted research trials that improved average daily gain in cattle by 10%.
- Developed feeding regimes that enhanced milk production in dairy cows.
- Collaborated with veterinarians to assess health outcomes related to nutrition.
- Published findings in leading journals, contributing to industry knowledge.
- Provided technical support to farmers on feed selection and formulation.
- Organized workshops on ruminant nutrition best practices.

Nutrition Consultant
2019-2020

Sheep Farming Partners

- Designed nutritional programs that increased wool production by 15% in Merino sheep.
- Analyzed feed compositions to ensure compliance with nutritional standards.
- Worked closely with farmers to implement effective feeding strategies.
- Conducted market research to identify new feed sources.
- Published articles on the economic benefits of optimal ruminant nutrition.
- Secured grants for research on sustainable feed practices.

★ ACHIEVEMENTS

- Published 6 research papers on ruminant nutrition in peer-reviewed journals.
- Awarded 'Outstanding Contribution to Animal Nutrition' in 2021.
- Led a project that improved feed efficiency by 20% in collaborative trials.
