MICHAEL ANDERSON

LEAD FHIR ARCHITECT

Strategic FHIR Integration Specialist renowned for transforming healthcare data management through innovative integration solutions. Extensive experience in deploying FHIR standards in various healthcare settings, resulting in enhanced interoperability and streamlined workflows. Proven ability to lead cross-functional teams in the development and execution of integration strategies that align with organizational goals. Exceptional analytical skills facilitate the identification of process inefficiencies and the implementation of corrective measures.

PROFESSIONAL EXPERIENCE

NextGen Health Solutions   *Mar 2018 - Present*
Lead FHIR Architect

- Directed the architectural design of FHIR-based integration frameworks.
- Engaged with stakeholders to define integration objectives and performance metrics.
- Oversaw the development and deployment of FHIR services across multiple platforms.
- Evaluated emerging technologies to enhance integration capabilities.
- Facilitated knowledge-sharing sessions to promote best practices in FHIR implementation.
- Monitored and reported on project progress to executive leadership.

Healthcare Innovations Inc.   *Dec 2015 - Jan 2018*
Senior Integration Analyst

- Analyzed integration requirements for various healthcare applications using FHIR standards.
- Developed testing protocols to ensure data integrity during integration processes.
- Collaborated with IT and clinical teams to optimize data flow and accessibility.
- Provided ongoing support and troubleshooting for FHIR-related issues.
- Documented integration processes and developed training resources for staff.
- Participated in regulatory compliance audits related to data exchange initiatives.

ACHIEVEMENTS

- Achieved a 40% reduction in integration project timelines through improved methodologies.
- Recognized for excellence in leadership with the 'Best Team Leader Award'.
- Contributed to a successful FHIR integration project for a major healthcare provider, enhancing patient data access.
