🎓 EDUCATION

Bachelor of Science in Software Engineering

Georgia Institute of Technology
2019

★ SKILLS

- software engineering
- FHIR APIs
- integration testing
- programming
- technical support
- documentation

🗛 LANGUAGES

- English
- Spanish
- French

Proficient FHIR Integration Specialist with a solid foundation in software engineering and healthcare information systems. Expertise in designing and implementing FHIR-compliant solutions that enhance interoperability among various healthcare applications. Extensive experience in utilizing programming languages and integration tools to address complex data exchange challenges. Strong analytical and problem-solving skills contribute to the development of efficient integration strategies that align with business objectives.

💼 WORK EXPERIENCE

Software Engineer - FHIR Integration   2020-2023
TechHealth Solutions

- Developed FHIR APIs and integration components for healthcare applications.
- Collaborated with product teams to gather requirements for integration features.
- Implemented testing frameworks to ensure the reliability of integration solutions.
- Participated in code reviews to maintain high-quality software standards.
- Provided technical support for deployed FHIR integrations.
- Documented integration processes and contributed to knowledge management resources.

Junior Software Developer   2019-2020
Innovative Health Systems

- Assisted in the development of FHIR-compliant applications for healthcare providers.
- Conducted system testing to identify and rectify integration issues.
- Collaborated with senior developers to enhance application functionalities.
- Maintained documentation for FHIR integration projects.
- Engaged in team meetings to discuss project progress and challenges.
- Supported user training sessions on new integration features.

★ ACHIEVEMENTS

- Successfully delivered multiple FHIR integration projects ahead of schedule.
- Recognized for exceptional coding skills with the 'Rising Star Award'.
- Contributed to a significant reduction in integration-related support tickets by 20%.
