MICHAEL ANDERSON

FISH FARM SUPERVISOR

A dedicated Finfish Production Specialist with over 6 years of experience in aquaculture and fish farming. Expertise in the management of fish production cycles, ensuring optimal growth conditions and adherence to health standards. Skilled in utilizing technology to monitor and improve fish farming processes. A proactive team player with a strong commitment to sustainability and environmental stewardship.

PROFESSIONAL EXPERIENCE

Sustainable Aquaculture Group

Mar 2018 - Present

Fish Farm Supervisor

- Supervised day-to-day operations of a 100-acre fish farm.
- Coordinated feeding schedules and monitored fish growth metrics.
- Implemented biosecurity measures that reduced disease outbreaks.
- Trained staff on fish health management and operational procedures.
- Conducted water quality assessments to maintain optimal conditions.
- Collaborated with management to enhance production efficiency.

Freshwater Fisheries Association

Dec 2015 - Jan 2018

Aquaculture Technician

- Assisted in breeding and rearing of finfish species.
- Monitored and maintained water quality parameters.
- Participated in health assessments and treatment protocols.
- Maintained accurate production records and reporting.
- Supported the implementation of new aquaculture technologies.
- Engaged in community outreach programs to promote sustainable practices.

ACHIEVEMENTS

- Increased fish survival rates by 15% through improved management practices.
- Recognized for outstanding contributions to aquaculture sustainability initiatives.
- Led a project that reduced operational costs by 10% through efficiency improvements.
