MICHAEL ANDERSON

FINISH CARPENTER SUPERVISOR

Innovative Finish Carpenter specializing in sustainable building practices with more than 9 years of experience in eco-friendly construction. Expert in sourcing sustainable materials and employing modern techniques that minimize environmental impact while maximizing aesthetic appeal. Known for a holistic approach to design and construction, integrating functionality with sustainability principles. Proven ability to manage projects from inception to completion, ensuring that all carpentry work aligns with green building standards.

PROFESSIONAL EXPERIENCE

Green Builders Inc.

Mar 2018 - Present

Finish Carpenter Supervisor

- Oversaw the installation of sustainable wood products in various residential projects.
- Collaborated with eco-designers to create energy-efficient and sustainable living spaces.
- Implemented green building practices that resulted in a 20% reduction in project waste.
- Conducted workshops for clients on sustainable materials and building techniques.
- Managed a team of carpenters, ensuring adherence to sustainability standards and safety regulations.
- Evaluated project designs for environmental impact, proposing alternatives as necessary.

Eco-Friendly Interiors

Dec 2015 - Jan 2018

Finish Carpenter

- Executed finish carpentry tasks utilizing reclaimed and sustainably sourced materials.
- Worked closely with clients to design custom furniture reflecting sustainable practices.
- Performed precise installations of cabinetry and shelving, ensuring structural integrity.
- Maintained high standards of craftsmanship, receiving positive feedback from clients.
- Assisted in developing a recycling program for construction waste, leading to increased efficiency.
- Attended training on sustainable design principles, applying knowledge to projects.

ACHIEVEMENTS

- Recognized as 'Sustainable Builder of the Year' by Eco Construction Magazine in 2020.
- Implemented a recycling initiative that improved material efficiency by 30%.
- Contributed to the completion of 50+ eco-friendly projects, enhancing community awareness.
