- French

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, UNIVERSITY OF ILLINOIS

ACHIEVEMENTS

- Led a project that increased system capacity by 200%.
- Recognized for excellence in delivering high-impact software solutions.
- Contributed to a technical blog, sharing insights on software architecture.

SOFTWARE ARCHITECT

Strategic FinTech Software Engineer with extensive experience in software architecture and cloud computing, focusing on building resilient and scalable financial solutions. Over 9 years of experience in the industry, with a strong emphasis on developing APIs and microservices that facilitate seamless integration across platforms. Proven ability to lead complex projects from conception to deployment, ensuring alignment with business objectives and technical specifications.

WORK EXPERIENCE

SOFTWARE ARCHITECT
Global Financial Solutions
2020 - 2025

- Designed a microservices architecture that improved system scalability and reduced downtime by 40%.
- Led a team of engineers in developing a suite of APIs for financial applications.
- Implemented DevOps practices, accelerating deployment cycles by 50%.
- Conducted architecture reviews to ensure compliance with best practices.
- Collaborated with product owners to define technical requirements for new features.
- Mentored junior engineers, promoting knowledge sharing and skill development.

SENIOR SOFTWARE ENGINEER
Innovative Payments Corp.
2015 - 2020

- Developed payment processing systems that supported over 1 million transactions monthly.
- Enhanced system security protocols, reducing vulnerabilities by 45%.
- Worked on API integrations with third-party payment gateways.
- Conducted performance tuning of existing applications, improving response times.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Provided technical leadership during project planning and execution phases.
