MICHAEL ANDERSON

FIREWALL SECURITY SPECIALIST

Experienced Firewall Engineer with over 5 years in the information technology sector, specializing in security infrastructure and network defense strategies. Proven skills in configuring and managing firewalls to protect sensitive data against cyber threats. Demonstrated ability to work collaboratively with teams to enhance security measures and maintain compliance with industry regulations.

PROFESSIONAL EXPERIENCE

SecureWeb Solutions

Mar 2018 - Present

Firewall Security Specialist

- Implemented and managed firewall systems, reducing security breaches by 30% within the first year.
- Conducted regular security assessments, identifying and addressing vulnerabilities promptly.
- Collaborated with network engineers to integrate firewalls with existing network infrastructure.
- Monitored firewall logs and alerts, responding to incidents effectively.
- Developed user training materials for firewall management best practices.
- Participated in incident response drills, improving team readiness for security events.

TechGuard Inc.

Dec 2015 - Jan 2018

Network Security Analyst

- Assisted in the configuration of firewall rules, ensuring compliance with security policies.
- Performed vulnerability scans and penetration testing, identifying areas for improvement.
- Provided support for security incidents, helping to contain and mitigate threats.
- Documented firewall configurations and changes for audit purposes.
- Collaborated with IT teams to implement security upgrades and patches.
- Engaged in continuous professional development focused on emerging security threats.

ACHIEVEMENTS

- Successfully implemented new firewall policies that resulted in a 40% reduction in unauthorized access attempts.
- Received commendation for outstanding performance during a critical security incident.
- Achieved CompTIA Security+ certification within the first year of employment.
