MICHAEL ANDERSON

LEAD FEED FORMULATOR

Performance-driven Fish Feed Formulation Specialist with a robust background in the aquaculture sector. Demonstrates expertise in creating nutritionally balanced feeds that promote optimal growth and health in fish populations. Known for leveraging scientific research to develop innovative feed formulations while maintaining cost-efficiency. Exhibits strong analytical skills to assess feed performance and make data-driven decisions.

PROFESSIONAL EXPERIENCE

Global Fish Feeds Inc.

Mar 2018 - Present

Lead Feed Formulator

- Designed and implemented advanced feed formulations for a diverse range of aquatic species.
- Monitored feed trials to ensure compliance with nutritional standards and growth targets.
- Collaborated with production teams to enhance manufacturing processes and reduce costs.
- Established quality assurance protocols to maintain product integrity.
- Conducted market research to identify emerging trends and consumer preferences.
- Provided technical support to clients on feed application and nutrition.

Independent Consultant

Dec 2015 - Jan 2018

Aquaculture Consultant

- Advised aquaculture businesses on feed formulation and nutritional strategies.
- Conducted assessments of existing feed products to identify areas for improvement.
- Developed customized feed solutions based on specific client needs and species requirements.
- Facilitated workshops on the latest trends in aquaculture nutrition.
- Collaborated with research institutions to validate new feed technologies.
- Provided ongoing support to clients to ensure successful implementation of recommendations.

ACHIEVEMENTS

- Increased feed sales by 20% through the launch of a new product line.
- Developed a feed formulation that improved fish growth rates by 15%.
- Recognized for outstanding service by the Aquaculture Association in 2020.
