

MICHAEL ANDERSON

FISHERIES COMPLIANCE OFFICER

PROFILE

Dedicated Fisheries Inspector with a focus on aquaculture and freshwater ecosystems. Over 8 years of experience monitoring compliance within fish farming operations and assessing environmental impacts. Expertise in conducting inspections, analyzing water quality, and ensuring adherence to best practices in fish health management. Proven ability to collaborate effectively with aquaculture producers to enhance sustainability and productivity.

EXPERIENCE

FISHERIES COMPLIANCE OFFICER

Aquaculture Association

2016 - Present

- Conducted regular inspections of aquaculture facilities to enforce compliance with health and safety standards.
- Monitored water quality parameters to ensure optimal conditions for fish growth.
- Collaborated with farmers to develop best management practices for sustainable aquaculture.
- Provided training on biosecurity measures to minimize disease outbreaks.
- Analyzed production data to recommend improvements in operational efficiency.
- Engaged in community education initiatives to promote responsible aquaculture practices.

JUNIOR FISHERIES INSPECTOR

Department of Fisheries and Oceans

2014 - 2016

- Assisted in the inspection of freshwater fisheries to ensure regulatory compliance.
- Collected samples for laboratory analysis to assess fish health and population dynamics.
- Maintained accurate records of inspections and findings for reporting purposes.
- Participated in public consultations to gather input on fishery management plans.
- Supported senior inspectors in data collection and field assessments.
- Contributed to the development of educational materials on sustainable fishing practices.
