EDUCATION

Bachelor of Science in Fisheries Technology

Oregon State University
2016-2020

SKILLS

- Fisheries Technology
- Data Analytics
- Remote Sensing
- Environmental Modeling
- Training Development
- Research Collaboration

LANGUAGES

- English
- Spanish
- French

Experienced Fisheries Specialist with a robust background in fishery technology and innovation. Over 7 years of experience in implementing advanced technologies to enhance fishery management and monitoring. Expertise in data analytics, remote sensing, and environmental modeling. Proven ability to integrate technology into traditional fisheries practices, leading to improved sustainability and productivity.

💼 WORK EXPERIENCE

Fisheries Technology Specialist   2020-2023

TechFish Innovations

- Developed and implemented data management systems for fisheries.
- Utilized remote sensing technology for habitat mapping and monitoring.
- Conducted training sessions on technology integration for fishers.
- Collaborated with researchers on technology-driven fisheries solutions.
- Monitored project outcomes to assess technology effectiveness.
- Participated in conferences to present technological advancements in fisheries.

Data Analyst   2019-2020

Fisheries Research Institute

- Analyzed fishery data using advanced statistical software.
- Supported research projects focused on technology applications in fisheries.
- Collaborated with scientists on data interpretation and reporting.
- Engaged with stakeholders to promote technology adoption.
- Assisted in the development of technology-based educational materials.
- Contributed to grant proposals for technology research funding.

★ ACHIEVEMENTS

- Implemented a data management system that improved reporting efficiency by 40%.
- Recognized for innovation in fisheries technology at industry conferences.
- Published research on technology applications in sustainable fisheries.
