

MICHAEL ANDERSON

Senior Flavor Chemist

Experienced Flavor Chemist with over 9 years in the pharmaceutical industry, focusing on flavor masking and formulation for oral dosage forms. Adept at developing flavors that enhance patient compliance while adhering to strict regulatory requirements. Proficient in conducting stability studies and sensory evaluations to ensure flavor integrity over product shelf life.

WORK EXPERIENCE

Senior Flavor Chemist

2020-2023

PharmaTaste Solutions

- Developed flavor solutions for over 25 pharmaceutical products, increasing patient compliance rates by 30%.
- Conducted stability testing to ensure flavor integrity throughout the product shelf life.
- Collaborated with regulatory teams to ensure compliance with FDA flavor regulations.
- Engaged in sensory evaluations to assess flavor masking effectiveness in formulations.
- Led cross-functional teams to streamline flavor development processes, improving launch timelines.
- Mentored junior chemists in flavor formulation techniques and regulatory compliance.

Flavor Chemist

2019-2020

MediFlavor Innovations

- Assisted in the development of flavor masking solutions for liquid and solid oral dosage forms.
- Performed sensory evaluations to validate flavor effectiveness and consumer acceptance.
- Maintained compliance with quality assurance practices and regulatory standards.
- Conducted market research to identify flavor trends in the pharmaceutical sector.
- Prepared documentation for regulatory submissions related to flavor ingredients.
- Collaborated with product development teams to align flavor offerings with patient needs.

ACHIEVEMENTS

- Developed a flavor masking agent that improved patient compliance for a major product line.
- Received the 'Innovative Flavor Technology' award at the Annual Pharmaceutical Conference.
- Successfully increased the market share of flavored pharmaceuticals by 15% through innovative formulations.
