Michael Anderson

METAL SCULPTOR

Dynamic Folk Art Artisan with a focus on metalworking, possessing over ten years of experience in the creation of intricate metal sculptures and functional art pieces. Recognized for the ability to merge traditional metalworking techniques with contemporary design, resulting in unique and compelling artworks. Proven track record of participating in prestigious art exhibitions, showcasing works that reflect cultural narratives and personal stories.

EXPERIENCE

METAL SCULPTOR

Ironworks Studio

2016 - Present

- Designed and fabricated large-scale metal sculptures for public art installations.
- Utilized advanced welding techniques to enhance structural integrity and aesthetic appeal.
- Conducted workshops on metalworking basics, attracting participants from diverse backgrounds.
- Collaborated with architects to create custom metal features for residential projects.
- Participated in national metal art exhibitions, receiving critical acclaim.
- Implemented safety protocols in the studio, ensuring a secure working environment.

METALWORKING INSTRUCTOR

Artisan Academy

2014 - 2016

- Developed and taught courses on metalworking techniques for aspiring artisans.
- Organized community metal art projects, fostering collaboration among local artists.
- Engaged with students through hands-on demonstrations and interactive learning.
- Secured funding for tools and materials to enhance the learning experience.
- Documented student projects through exhibitions, promoting their work.
- Facilitated discussions on the cultural significance of metal art in contemporary society.
