SKILLS

- Plant-based processing
- Quality control
- Data analytics
- Process optimization
- Sustainability practices
- Team training

EDUCATION

MASTER'S IN FOOD SCIENCE, UNIVERSITY OF ILLINOIS, 2016

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Increased product consistency by 25% through improved quality control measures.
- Played a key role in launching a new line of plant-based products that exceeded sales expectations.
- Recognized for developing innovative processing techniques that contributed to sustainability efforts.

Michael Anderson

SENIOR FOOD PROCESS ENGINEER

I am an innovative Food Process Engineer with over 7 years of experience in the plant-based food sector. My background includes a strong focus on sustainability and health trends in food processing. I began my career in a startup that specialized in alternative protein sources, where I developed processes for plant-based products.

EXPERIENCE

SENIOR FOOD PROCESS ENGINEER

Green Plate Foods

2016 - Present

- Led the development and optimization of processes for plant-based protein products.
- Implemented new quality control measures that increased product consistency by 25%.
- Collaborated with marketing to align product development with consumer trends.
- Utilized data analytics to enhance production processes and reduce waste.
- Trained cross-functional teams on sustainable practices in food processing.
- Conducted regular audits to ensure compliance with food safety standards.

FOOD PROCESS ENGINEER

Alternative Protein Inc.

2014 - 2016

- Developed innovative processing techniques for plant-based meat alternatives.
- Monitored production metrics to identify areas for improvement and implement solutions.
- Assisted in product formulation and testing to enhance flavor and texture.
- Worked with suppliers to ensure quality compliance of raw materials.
- Trained staff on operation and maintenance of processing equipment.
- Participated in product development teams to align processing capabilities with market needs.
