Michael Anderson

HEALTH SYSTEMS ANALYST

Dynamic Foreign Aid Analyst with a focus on health systems strengthening and emergency response. Extensive experience in evaluating and enhancing health programs in low-resource settings. Proven ability to analyze health data and derive actionable insights that inform program design and implementation. Strong background in liaising with health ministries, NGOs, and community health workers to ensure effective service delivery.

EXPERIENCE

HEALTH SYSTEMS ANALYST

Doctors Without Borders

2016 - Present

- Evaluated health programs to identify gaps and opportunities for improvement.
- Collaborated with local health authorities to enhance service delivery.
- Developed health data tracking systems for program monitoring.
- Conducted training for health workers on best practices.
- Reported on health outcomes to donors and stakeholders.
- Engaged in emergency response efforts during health crises.

PROGRAM COORDINATOR

CARE International

2014 - 2016

- Coordinated health and nutrition programs in emergency settings.
- Analyzed health data to inform program adjustments.
- Engaged with community leaders to promote health initiatives.
- Facilitated workshops on health education and awareness.
- Monitored program implementation to ensure compliance with standards.
- Reported on program impact and challenges to stakeholders.
