EDUCATION

MASTER OF SCIENCE IN CYBERSECURITY, STANFORD UNIVERSITY

ACHIEVEMENTS

- Recovered over $2 million in assets lost due to cyber fraud.
- Presented at the International Cybersecurity Conference on forensic techniques.
- Received the 'Cybersecurity Innovator' award for developing a new forensic tool.

PROFILE

Highly analytical forensic auditor with a unique specialization in cybersecurity and digital forensics. Over eight years of experience in investigating cyber-related financial crimes, employing cutting-edge technology to trace digital footprints and recover lost assets. Known for a meticulous approach to uncovering complex schemes involving electronic records and transactions. Demonstrates a strong ability to communicate technical findings to non-technical stakeholders, ensuring clarity and comprehension.

EXPERIENCE

CYBER FORENSIC AUDITOR

TechSecure Investigations

2016 - Present

- Executed forensic investigations into cyber fraud, utilizing advanced software for data recovery and analysis.
- Collaborated with IT departments to enhance cybersecurity protocols and prevent future breaches.
- Created detailed incident reports summarizing findings for law enforcement and corporate stakeholders.
- Conducted vulnerability assessments to identify weaknesses in financial systems.
- Developed training programs for staff on recognizing and responding to cyber threats.
- Analyzed digital evidence to support legal cases, ensuring compliance with legal standards.

FORENSIC ANALYST

Cyber Crime Unit

2014 - 2016

- Participated in high-profile investigations involving cyber-related financial fraud.
- Utilized data mining techniques to identify fraudulent transactions within electronic systems.
- Worked closely with law enforcement to facilitate the prosecution of cybercriminals.
- Prepared and presented findings at conferences on the intersection of technology and forensic accounting.
- Implemented best practices for digital evidence collection and preservation.
- Assisted in the development of a national training curriculum for forensic auditors focusing on cybersecurity.
