MICHAEL ANDERSON

FOREST OPERATIONS MANAGER

Dynamic Forest Harvest Planning Specialist with a robust background in operational strategy and environmental conservation. Expertise in developing and executing comprehensive harvest plans that balance economic viability with ecological integrity. Possesses a keen understanding of forest dynamics and the factors influencing timber yield. Skilled in utilizing data analytics to drive decision-making and optimize resource allocation.

PROFESSIONAL EXPERIENCE

Nature First Forestry

Mar 2018 - Present

Forest Operations Manager

- Oversaw the planning and execution of forest operations for 15,000 acres.
- Implemented data-driven strategies to enhance timber yield by 18%.
- Facilitated cross-departmental meetings to align project objectives.
- Supervised a team of 10 in the execution of harvest plans.
- Developed financial models to project costs and revenues from timber sales.
- Established partnerships with local governments for sustainable initiatives.

Forestry Innovations LLC

Dec 2015 - Jan 2018

Assistant Forest Planner

- Assisted in the development of harvest plans for diverse forest types.
- Conducted field assessments to gather data on timber volume and quality.
- Utilized GIS tools for mapping and analysis of forest resources.
- Supported compliance efforts with federal and state forestry regulations.
- Engaged with community stakeholders to address concerns and provide updates.
- Contributed to the preparation of environmental impact reports.

ACHIEVEMENTS

- Achieved a 30% increase in productivity through process improvements.
- Received the 'Sustainability Award' from the Forest Stewardship Council.
- Played a key role in a project that enhanced wildlife habitats in managed forests.
