SKILLS

- nursery coordination
- plant propagation
- quality control
- community engagement
- horticultural science
- environmental biology

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN
HORTICULTURE, UNIVERSITY OF
CALIFORNIA, 2013**

ACHIEVEMENTS

- Increased seedling survival rates by 30% through enhanced care techniques.
- Recognized with the 'Outstanding Service Award' for contributions to community forestry.
- Developed a comprehensive training manual adopted by local nurseries.

WORK EXPERIENCE

FOREST NURSERY COORDINATOR

Nature's Resilience

2020 - 2025

- Coordinated nursery activities focused on the production of over 100 species of native plants.
- Implemented quality control measures that improved seedling quality by 20%.
- Developed and maintained relationships with local forestry agencies.
- Organized community planting events to promote environmental awareness.
- Monitored plant health and adjusted care protocols as required.
- Prepared detailed reports on nursery performance and growth metrics.

FIELD TECHNICIAN

Green Canopy

2015 - 2020

- Conducted field assessments to determine site suitability for planting native species.
- Collaborated with ecologists to evaluate the ecological impact of nursery operations.
- Assisted in the propagation and care of seedlings in a controlled environment.
- Maintained records of seedling growth and environmental conditions.
- Participated in public outreach programs to educate the community on forestry practices.
- Provided technical support during tree planting initiatives.
