Master of Environmental Management

Duke University

2016-2020

SKILLS

- forest sustainability
- ecological analysis
- community engagement
- data modeling
- GIS
- policy advocacy

LANGUAGES

- English
- Spanish
- French

Visionary Forest Resource Analyst with an emphasis on leveraging technology and innovative practices to enhance forest sustainability. Expertise in the evaluation and analysis of forest ecosystems, integrating scientific research with practical management strategies. A strong advocate for community involvement in forestry initiatives, with a history of developing programs that educate and engage local stakeholders.

💼 WORK EXPERIENCE

Forest Resource Analyst   2020-2023

Global Forestry Solutions

- Conducted research on the impacts of climate change on forest ecosystems.
- Utilized GIS and remote sensing technologies to analyze forest data.
- Collaborated with local communities to develop sustainable forestry practices.
- Participated in the creation of educational programs for stakeholders.
- Prepared reports to inform policy decisions regarding forest management.
- Supported the implementation of conservation strategies across multiple projects.

Forest Management Intern   2019-2020

Biodiversity Conservation Agency

- Assisted in the assessment of forest biodiversity and health.
- Conducted field surveys to gather ecological data.
- Engaged with community members to promote conservation efforts.
- Supported data analysis for forest management projects.
- Contributed to the development of outreach materials.
- Participated in workshops focused on sustainable land use.

★ ACHIEVEMENTS

- Secured funding for innovative community forestry projects.
- Increased participation in conservation workshops by 80%.
- Published research on forest resilience in a leading environmental journal.
