### SUMMARY

Accomplished Forest Restoration Specialist with over 10 years of extensive experience in ecological restoration, habitat enhancement, and sustainable forestry practices. Expertise encompasses a comprehensive understanding of forest ecosystems and the intricate interdependencies among species. Proven track record in leading multidisciplinary teams through complex restoration projects, ensuring adherence to environmental regulations and best practices.

---

### WORK EXPERIENCE

#### Senior Ecologist Green Earth Solutions

Jan 2023 - Present

- Directed large-scale reforestation initiatives across multiple regions.
- Conducted ecological assessments to identify restoration needs and priorities.
- Collaborated with governmental agencies to secure funding for restoration projects.
- Implemented innovative soil restoration techniques to enhance biodiversity.
- Trained and mentored junior ecologists and field staff on best practices.
- Monitored and evaluated project outcomes, reporting on ecological improvements.

#### Field Restoration Technician EcoRestore Inc.

Jan 2020 - Dec 2022

- Assisted in the execution of habitat restoration projects in degraded areas.
  - Utilized GIS technology to map restoration sites and monitor progress.
  - Engaged with local communities to raise awareness about forest conservation.
  - Collected field data to assess plant and wildlife populations pre- and post-restoration.
  - Supported the implementation of invasive species control measures.
  - Documented project activities and compiled detailed reports for stakeholders.
- 

### EDUCATION

#### Master of Science in Environmental Science, University of Washington

Sep 2019 - Oct 2020

---

### ADDITIONAL INFORMATION
