

MICHAEL ANDERSON

URBAN FORESTRY MANAGER

PROFILE

Accomplished forester specializing in urban forestry with over 10 years of dedicated experience in enhancing urban green spaces. Expertise lies in integrating tree management with urban development strategies to foster sustainable city environments. Proven track record of collaboration with city planners and community organizations to promote tree planting initiatives and conservation programs.

EXPERIENCE

URBAN FORESTRY MANAGER

City of Greenfield

2016 - Present

- Implemented urban tree canopy assessments utilizing remote sensing technology.
- Developed a city-wide tree planting initiative that increased urban canopy by 15%.
- Collaborated with local schools to create educational programs on tree care.
- Managed a budget of \$500,000 for urban forestry projects and initiatives.
- Conducted community workshops to promote awareness of urban forestry benefits.
- Supervised a team of arborists in maintaining public trees and green spaces.

FORESTRY CONSULTANT

Urban Green Solutions

2014 - 2016

- Provided consulting services on urban forestry best practices to municipalities.
- Assisted in the development of urban forest management plans.
- Conducted assessments of tree health and provided actionable recommendations.
- Facilitated training sessions for city staff on tree maintenance techniques.
- Created outreach materials to educate the public on urban forest conservation.
- Analyzed urban tree data to inform policy decisions and resource allocation.
