

# MICHAEL ANDERSON

## URBAN FORESTRY PROGRAM MANAGER

### PROFILE

Accomplished Forestry Specialist with a robust background in urban forestry and landscape ecology. Expertise lies in integrating ecological principles with urban planning to enhance green spaces in metropolitan areas. Demonstrated ability to lead interdisciplinary teams in the assessment and management of urban forests, ensuring the sustainability of tree populations while promoting community health and well-being.

### EXPERIENCE

#### URBAN FORESTRY PROGRAM MANAGER

##### City of Metropolis

2016 - Present

- Oversaw urban forestry initiatives aimed at increasing tree canopy coverage.
- Developed and implemented community education programs on tree care.
- Utilized data analytics to assess urban forest health and biodiversity.
- Collaborated with city planners to integrate green spaces into urban development.
- Managed grant funding for urban greening projects and initiatives.
- Engaged with local organizations to promote tree planting events.

#### FORESTRY RESEARCH ASSISTANT

##### Urban Ecology Institute

2014 - 2016

- Conducted research on the impact of urbanization on forest ecosystems.
- Analyzed spatial data to understand tree distribution patterns in cities.
- Assisted in the development of urban forest management plans.
- Collaborated with local governments to promote urban biodiversity.
- Presented findings at national conferences to advocate for urban forestry.
- Contributed to community workshops on the benefits of urban trees.
