ACHIEVEMENTS

- Received a 'Best Intern' award for exceptional performance during my internship.
- Successfully completed a personal project that gained recognition in an online design community.
- Participated in a hackathon, winning second place for a project focused on social good.

PROFILE

A passionate Frontend Web Developer with a unique blend of technical skills and creative design, I have over 3 years of experience in developing engaging user interfaces for various platforms. My journey in web development began as a hobby, which quickly transformed into a professional pursuit. I focus on creating seamless web experiences that not only function well but also resonate with users on an emotional level.

EXPERIENCE

FRONTEND DEVELOPER

Creative Web Agency

2016 - Present

- Designed and implemented user-friendly web applications using Angular and Bootstrap, resulting in a 35% improvement in user satisfaction.
- Collaborated with designers to ensure that the final product met aesthetic and functional requirements.
- Conducted A/B testing to optimize web features, leading to a 15% increase in conversion rates.
- Utilized Git for project versioning and collaboration with team members.
- Maintained documentation for code standards and practices to facilitate team onboarding.
- Engaged in regular code reviews, fostering a culture of continuous improvement among team members.

WEB DEVELOPER INTERN

StartUp Hub

2014 - 2016

- Assisted in creating responsive web pages for various clients, enhancing their online presence.
- Learned and applied Agile methodologies in a fast-paced development environment.
- Participated in brainstorming sessions to develop innovative solutions for client projects.
- Conducted quality assurance testing to ensure functionality and user experience were up to standard.
- Improved page load speed by optimizing images and scripts, enhancing user experience.
- Worked closely with senior developers to gain insights into best practices and industry standards.
