MICHAEL ANDERSON

FULL STACK DEVELOPER

Enthusiastic Full Stack Developer with over 3 years of experience in web application development and a strong background in software engineering principles. I have a passion for creating efficient and scalable solutions that meet user needs and business objectives. My primary focus has been on developing responsive web applications using modern technologies such as React, Node.

PROFESSIONAL EXPERIENCE

Innovatech Labs

Mar 2018 - Present

Full Stack Developer

- Developed user-friendly interfaces for web applications using React and integrated them with Node.js backends.
- Built RESTful APIs to enhance application functionality and improve data management.
- Collaborated with QA teams to optimize testing processes and reduce bugs in production.
- Participated in daily stand-ups and sprint planning sessions to align project goals.
- Utilized version control systems like Git to manage codebases effectively.
- Conducted code reviews and provided constructive feedback to peers to improve code quality.

Digital Solutions Group

Dec 2015 - Jan 2018

Intern Full Stack Developer

- Assisted in the development of a web application using Django and React, contributing to both frontend and backend.
- Supported the team in debugging and troubleshooting issues during application testing.
- Documented development processes and created user manuals for end users.
- Engaged in team meetings to discuss project progress and challenges.
- Participated in workshops and training sessions to enhance technical skills.
- Contributed ideas for feature enhancements based on user feedback.

ACHIEVEMENTS

- Completed a successful capstone project that was recognized for its innovative approach to problem-solving.
- Increased user satisfaction ratings by implementing user feedback into application features.
- Received positive feedback from supervisors for teamwork and problem-solving skills.
