- Achieved a 95% client satisfaction rating for delivered projects.

Michael Anderson

FULL STACK DEVELOPER

Innovative Full Stack Web Developer with a solid foundation in both front-end and back-end technologies, and over 3 years of professional experience. My expertise includes building dynamic web applications using technologies like React, Node.js, and PHP. I have a strong understanding of database management systems, and I am skilled in crafting APIs that facilitate seamless data exchange between systems.

EXPERIENCE

FULL STACK DEVELOPER

Creative Tech Solutions

2016 - Present

- Developed full-featured web applications using React and Node.js for client projects.
- Collaborated with design teams to ensure adherence to branding and user experience standards.
- Conducted integration testing to ensure compatibility with third-party services and APIs.
- Implemented performance optimization techniques that resulted in a 30% faster load time.
- Assisted in database design and management, ensuring data integrity and security.
- Engaged in code reviews and provided constructive feedback to team members.

WEB DEVELOPER

Tech Start

2014 - 2016

- Contributed to the development of internal tools using PHP and MySQL.
- Assisted in migrating legacy applications to modern frameworks, improving maintainability.
- Participated in sprint planning and retrospectives to enhance team collaboration.
- Supported QA efforts by identifying bugs and assisting in resolution.
- Created documentation and user manuals for new features and applications.
- Provided support to clients during the deployment of new features and updates.
