MICHAEL ANDERSON

GAME BEHAVIOR ANALYST

Dynamic Game Analytics Specialist with a robust background in behavioral economics and a focus on enhancing user engagement through data-driven insights. Proficient in utilizing advanced analytical techniques to interpret complex gaming data and inform strategic decisions that align with user preferences. Demonstrated success in collaborating with product management and design teams to create compelling gaming experiences that resonate with target audiences.

PROFESSIONAL EXPERIENCE

Valve Corporation

Mar 2018 - Present

Game Behavior Analyst

- Analyzed player feedback to refine game mechanics and enhance user experience.
- Developed comprehensive reports on player behavior trends and patterns.
- Collaborated with marketing teams to assess campaign effectiveness based on player data.
- Integrated advanced analytics tools to automate data collection processes.
- Facilitated training sessions on the importance of data in game design.
- Contributed to a project that improved player retention rates by 18%.

Square Enix

Dec 2015 - Jan 2018

Junior Game Analyst

- Assisted in analyzing gameplay data to identify areas for improvement.
- Conducted surveys to gather player feedback for game enhancements.
- Supported senior analysts in data reporting and visualization tasks.
- Engaged with community feedback to inform design adjustments.
- Participated in cross-functional meetings to contribute analytical insights.
- Improved data reporting accuracy through meticulous data validation.

ACHIEVEMENTS

- Played a key role in launching a game that achieved critical acclaim and strong sales.
- Recognized for outstanding contributions to team projects and analytics initiatives.
- Developed a player engagement model that informed future game design strategies.
