MICHAEL ANDERSON

GAME PERFORMANCE SPECIALIST

Innovative Game Performance Analyst renowned for leveraging data-driven insights to enhance gaming experiences and optimize player engagement. Expertise in statistical analysis and data interpretation, complemented by a deep understanding of gaming mechanics and user psychology. Proven ability to translate complex data into strategic recommendations that drive product enhancements and marketing initiatives.

PROFESSIONAL EXPERIENCE

Bungie *Mar 2018 - Present*
Game Performance Specialist

- Conducted in-depth analysis of player engagement metrics to inform design decisions.
- Collaborated with product teams to implement data-driven enhancements to gameplay.
- Utilized machine learning techniques to predict player churn and develop retention strategies.
- Presented analytical reports to stakeholders, influencing game development priorities.
- Designed and executed player surveys to gather qualitative insights.
- Led workshops on data interpretation for non-technical team members.

Square Enix *Dec 2015 - Jan 2018*
Data Analyst

- Analyzed gameplay data to identify trends and inform marketing strategies.
- Worked with cross-functional teams to enhance user experience based on insights.
- Developed dashboards for real-time performance monitoring of game metrics.
- Conducted competitive analysis to inform product positioning.
- Utilized statistical software to analyze player feedback and satisfaction levels.
- Assisted in the development of new game features based on user data.

ACHIEVEMENTS

- Increased player satisfaction scores by 35% through targeted game improvements.
- Achieved recognition for leading a successful product launch with record engagement.
- Successfully identified key trends that led to a 20% increase in in-game purchases.
