WORK EXPERIENCE

Landscape Restoration Specialist

2020-2023

Eco Restoration Group

- Developed and implemented restoration plans for degraded landscapes.
- Conducted ecological assessments to identify restoration needs.
- Collaborated with local governments on community restoration projects.
- Educated community members about the importance of biodiversity.
- Utilized native plants to enhance ecosystem resilience.
- Monitored restoration progress and made adjustments as necessary.

Gardener

2019-2020

Nature's Best Gardens

- Maintained gardens with a focus on native plant species and sustainability.
- Implemented erosion control measures to protect landscapes.
- Provided guidance to clients on maintaining ecological gardens.
- Participated in local conservation initiatives and events.
- Developed educational resources on native gardening.
- Collaborated with landscape architects on environmentally focused projects.

ACHIEVEMENTS

- Successfully restored over 10 acres of degraded land to natural habitat.
- Recognized with the 'Environmental Stewardship Award' in 2020.
- Increased community awareness of conservation practices through workshops.
