ENGINEERING, UNIVERSITY OF
MICHIGAN**

ACHIEVEMENTS

- Successfully delivered projects under budget and ahead of schedule, enhancing company reputation.
- Recognized for excellence in project management with an industry award.
- Implemented a new project tracking system that improved efficiency by 30%.

WORK EXPERIENCE

PROJECT MANAGER, GAS POWER PLANT DEVELOPMENT

NextGen Energy Solutions

2020 - 2025

- Oversaw the development of a 300 MW gas power facility, ensuring compliance with all regulatory requirements.
- Managed project budgets exceeding \$50 million while maintaining cost efficiency.
- Coordinated with engineering, procurement, and construction teams to achieve milestones.
- Identified and mitigated project risks through proactive planning.
- Facilitated stakeholder meetings to align project goals and expectations.
- Developed comprehensive project documentation for regulatory submissions.

GAS POWER PLANT ENGINEER

PowerGrid Technologies

2015 - 2020

- Conducted performance assessments of gas turbines to ensure operational efficiency.
- Collaborated with maintenance teams to implement scheduled outages effectively.
- Participated in the development of strategic plans for facility upgrades.
- Documented engineering processes and maintained compliance with industry standards.
- Provided technical support during operational challenges.
- Contributed to the development of safety protocols for plant operations.
