- Minimally invasive techniques
- Patient education
- Team collaboration
- Research

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

DOCTOR OF MEDICINE, MEDICAL  
SCHOOL OF PEDIATRICS, 2012

### ACHIEVEMENTS

- Recognized for outstanding service in pediatric surgery by the Pediatric Surgical Association.
- Developed a patient education program that improved post-operative outcomes.
- Presented research findings at the National Pediatric Surgery Conference in 2019.

### PROFILE

Compassionate and results-driven General Surgeon with a specialization in pediatric surgery, bringing 10 years of experience in providing surgical care to children of all ages. My approach emphasizes a family-centered care model, ensuring that both patients and their families are involved in the decision-making process. I have a strong background in minimally invasive surgical techniques, which minimizes recovery time and pain for young patients.

### EXPERIENCE

#### PEDIATRIC GENERAL SURGEON

##### Children's Health Hospital

2016 - Present

- Performed over 300 pediatric surgeries annually, focusing on minimally invasive techniques.
- Developed educational materials for families regarding pre- and post-operative care.
