

MICHAEL ANDERSON

Mining Geomatics Surveyor

Results-driven Geomatics Surveyor with a strong focus on mining and resource exploration. Proven expertise in employing advanced surveying techniques to support mineral exploration and extraction projects. Recognized for exceptional analytical skills and the ability to interpret complex geological data, contributing to strategic decision-making in resource management. Skilled in collaborating with geologists and engineers to develop comprehensive surveying plans that align with project objectives and safety standards.

EDUCATION

Bachelor of Science in Geology

University of Alberta
2014

SKILLS

- Mining surveying
- Resource exploration
- Geological data analysis
- Project management
- Safety compliance
- Field surveying techniques

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Mining Geomatics Surveyor

2020-2023

Resource Surveying Inc.

- Conducted detailed surveys for mining exploration projects using GNSS and total stations.
- Collaborated with geologists to assess site conditions and identify mineral deposits.
- Prepared accurate survey maps and reports for regulatory submissions.
- Implemented safety protocols during field surveys to ensure compliance with industry standards.
- Managed project timelines and budgets, consistently delivering results on schedule.
- Trained junior staff on advanced surveying techniques and equipment usage.

Survey Field Assistant

2019-2020

Mineral Exploration Corp.

- Assisted senior surveyors in conducting field surveys for mineral exploration.
- Collected and documented geological data to support exploration efforts.
- Maintained surveying equipment and ensured operational accuracy in the field.
- Participated in site assessments to gather necessary data for project planning.
- Compiled survey data into comprehensive reports for project stakeholders.
- Engaged with local communities to address concerns regarding exploration activities.

ACHIEVEMENTS

- Successfully contributed to the discovery of a significant mineral deposit in 2019.
- Improved survey accuracy by 35% through the adoption of new technologies.
- Recognized for exemplary safety performance in field operations.
