## SKILLS

- Land Use Planning
- Transportation Systems
- GIS Technologies
- Data Visualization
- Community Engagement
- Project Management

## EDUCATION

**MASTER OF URBAN ENGINEERING, NEW YORK UNIVERSITY**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Successfully implemented a citywide transportation plan that improved accessibility by 40%.
- Received the 'Infrastructure Excellence Award' for outstanding project contributions.
- Published a report on urban mobility trends in a leading transportation journal.

# Michael Anderson

## TRANSPORTATION PLANNING ANALYST

Results-oriented Geospatial Urban Analyst with significant expertise in land use planning, transportation systems, and urban infrastructure development. Proficient in leveraging GIS technologies to conduct spatial analyses that drive strategic urban planning decisions. Demonstrates a keen understanding of urban dynamics and the interplay between land use and transportation. Proven track record in collaborating with multidisciplinary teams to implement urban development projects that enhance mobility and accessibility.

## EXPERIENCE

### TRANSPORTATION PLANNING ANALYST

City Transportation Department

2016 - Present

- Conducted geospatial analyses to inform transportation planning initiatives.
- Developed models to evaluate the impact of transportation projects on urban mobility.
- Collaborated with engineers to design transportation infrastructure improvements.
- Utilized GIS to map transportation networks and accessibility metrics.
- Engaged with community stakeholders to gather input on transportation needs.
- Presented transportation plans to city officials, resulting in project approval.

### URBAN INFRASTRUCTURE ANALYST

Metropolitan Infrastructure Agency

2014 - 2016

- Utilized GIS technology to assess urban infrastructure conditions.
- Conducted spatial analyses to identify areas for infrastructure upgrades.
- Collaborated with urban planners to develop infrastructure improvement plans.
- Engaged with community members to gather input on infrastructure needs.
- Presented findings to stakeholders, influencing infrastructure funding decisions.
- Developed reports on urban infrastructure trends and recommendations.
