# MICHAEL ANDERSON

## LEAD GHG INVENTORY SPECIALIST

Innovative GHG Inventory Specialist with a strong focus on data-driven decision-making and sustainability strategy development. Extensive experience in managing complex projects aimed at reducing greenhouse gas emissions across various sectors, including transportation, energy, and manufacturing. Expertise in leveraging advanced analytics and modeling techniques to inform policy and operational decisions. Known for a collaborative approach that fosters strong relationships with stakeholders and promotes a culture of transparency and accountability.

## **PROFESSIONAL EXPERIENCE**

### **Climate Solutions Group**

*Mar 2018 - Present*

Lead GHG Inventory Specialist

- Directed the development and implementation of corporate GHG reduction strategies.
- Utilized complex data analytics to assess emissions across multiple operations.
- Led cross-functional teams in the identification of emissions reduction projects.
- Established metrics for monitoring progress and reporting outcomes.
- Facilitated stakeholder workshops to gather input and drive engagement.
- Produced high-quality reports for internal and external stakeholders.

### **EcoSphere Technologies**

*Dec 2015 - Jan 2018*

GHG Inventory Manager

- Oversaw the preparation and submission of GHG emissions reports to regulatory bodies.
- Developed and maintained databases for emissions data collection and analysis.
- Collaborated with IT teams to enhance data management systems.
- Trained staff on GHG inventory protocols and best practices.
- Analyzed trends in emissions data to inform strategic planning.
- Engaged with external auditors to ensure compliance and accuracy.

## **ACHIEVEMENTS**

- Achieved a 30% reduction in overall emissions within the first two years of strategy implementation.
- Received recognition for leadership in corporate sustainability initiatives.
- Successfully integrated a new emissions tracking system across all operational units.
