MICHAEL ANDERSON

GRAPHQL DEVELOPER

I am a skilled GraphQL Developer with over 4 years of experience in delivering high-quality applications in the SaaS industry. My role has primarily focused on creating scalable and maintainable APIs that enhance user experience and data handling. I have a strong understanding of both front-end and back-end technologies, allowing me to bridge the gap between client needs and technical solutions.

PROFESSIONAL EXPERIENCE

SaaS Solutions Inc. *Mar 2018 - Present*
GraphQL Developer

- Developed GraphQL APIs for a multi-tenant application, improving data handling efficiency by 30%.
- Integrated Apollo Client for state management, enhancing application performance.
- Collaborated with UX teams to refine user interfaces based on API capabilities.
- Implemented caching mechanisms that reduced server load by 20%.
- Participated in Agile ceremonies, contributing to sprint planning and reviews.
- Conducted workshops on GraphQL best practices for the development team.

WebTech Innovations *Dec 2015 - Jan 2018*
Junior Developer

- Assisted in the development of REST APIs, gaining foundational knowledge in API design.
- Supported senior developers in migrating existing projects to GraphQL.
- Contributed to front-end development using React, enhancing user interface responsiveness.
- Documented API functionality, improving onboarding processes for new developers.
- Participated in code reviews to ensure quality and adherence to standards.
- Engaged in team discussions to brainstorm new features and improvements.

ACHIEVEMENTS

- Received the 'Rising Star' award for exceptional performance within the first year of employment.
- Improved API response times by 25% through effective caching strategies.
- Successfully led a project that streamlined data flow for a major client.
