Michael
ANDERSON

GRAPHQL DEVELOPER

As a passionate GraphQL Developer with 5 years of experience in the media industry, I have developed a strong foundation in building efficient and scalable applications. My expertise lies in creating APIs that serve complex content management systems, ensuring that data is both accessible and secure. I excel at transforming client requirements into technical solutions, leveraging GraphQL to enhance the user experience by minimizing data loading times.

SKILLS

- GraphQL
- Node.js
- React
- Content Management Systems
- API Security
- Agile Methodologies

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY FROM UNIVERSITY OF ARTS

ACHIEVEMENTS

- Awarded 'Employee of the Month' for outstanding contributions to the content management system project.
- Successfully improved application performance, leading to a 50% increase in user engagement.
- Created a comprehensive training manual for onboarding new developers.

WORK EXPERIENCE

GRAPHQL DEVELOPER
MediaWorks Inc.

2020 - 2025

- Designed and implemented GraphQL APIs for a content management system, improving data retrieval speeds by 40%.
- Collaborated with designers to create user-friendly interfaces for content publishing.
- Optimized server responses by implementing efficient query structures and caching.
- Worked closely with data teams to ensure data integrity and security across APIs.
- Participated in code reviews, ensuring high code quality and adherence to standards.
- Conducted training sessions for team members on effective GraphQL usage.

BACKEND DEVELOPER
ContentHub Solutions

2015 - 2020

- Developed RESTful services to support a multimedia platform, enhancing content delivery.
- Assisted in migrating legacy services to a GraphQL architecture.
- Implemented database optimization strategies that reduced query times by 30%.
- Documented API endpoints, streamlining communication within the development team.
- Participated in Agile methodologies, contributing to sprint planning and reviews.
- Worked with cross-functional teams to gather requirements and deliver user-centric features.
