SKILLS

- GraphQL
- Vue.js
- Angular
- API Security
- User Experience
- Agile Methodologies

EDUCATION

BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING FROM UNIVERSITY OF LEARNING

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Awarded 'Best Project' for the online learning platform at the annual EduTech conference.
- Increased user retention by 20% through API optimizations and feature enhancements.
- Developed a comprehensive guide for best practices in API development.

Michael Anderson

GRAPHQL DEVELOPER

I am an experienced GraphQL Developer with a focus on the educational technology sector, having spent the last 7 years enhancing learning platforms through innovative API solutions. My expertise in GraphQL has allowed me to create efficient data exchange mechanisms that support interactive learning experiences. I have a proven track record of collaborating with educators and developers to ensure that technical solutions align with user needs and educational goals.

EXPERIENCE

GRAPHQL DEVELOPER

EduTech Innovations

2016 - Present

- Developed GraphQL APIs for an online learning platform, reducing load times by 30%.
- Collaborated with educators to identify key features that enhance the user experience.
- Implemented security measures to protect sensitive student data.
- Participated in user testing sessions, gathering feedback for iterative improvements.
- Documented API functionalities for better team understanding and onboarding.
- Engaged in code reviews, promoting best practices within the development team.

FULL STACK DEVELOPER

Learning Solutions Inc.

2014 - 2016

- Built RESTful APIs to support web applications for educational content delivery.
- Worked on front-end development using Angular, improving user interface responsiveness.
- Contributed to the transition from REST to GraphQL, enhancing data fetching capabilities.
- Participated in Agile ceremonies, fostering collaboration and communication.
- Provided training to staff on the new API functionalities and features.
- Documented code and processes for future reference and knowledge transfer.
