- San Francisco, CA

EDUCATION

Bachelor of Science in Computer Engineering from Tech Institute

University
2016-2020

SKILLS

- GraphQL
- API Design
- Performance Optimization
- Real-time Data Processing
- Agile Methodologies
- Team Leadership

LANGUAGES

- English
- Spanish
- French

As a GraphQL Developer with over 8 years of experience in the telecommunications industry, I have developed a strong expertise in creating and optimizing APIs that facilitate seamless data flow. My focus has been on enhancing user experience through innovative solutions that reduce latency and improve data accessibility. I have successfully led projects that involved the integration of GraphQL into existing infrastructures, resulting in significant performance improvements.

💼 WORK EXPERIENCE

Lead GraphQL Developer   2020-2023

Telecom Innovations LLC

- Architected GraphQL APIs for real-time data processing, reducing latency by 50%.
- Led a team of developers in migrating legacy systems to a modern GraphQL architecture.
- Collaborated with product teams to define data requirements and optimize user experience.
- Implemented monitoring tools to track API performance and reliability.
- Conducted workshops for cross-functional teams on GraphQL best practices.
- Participated in Agile processes, ensuring timely delivery of project milestones.

GraphQL Developer   2019-2020

DataCom Solutions

- Developed GraphQL APIs for customer relationship management systems, enhancing data accessibility.
- Worked closely with data analysts to ensure that API outputs met business intelligence needs.
- Participated in the redesign of data structures to improve query performance.
- Documented API specifications, aiding in developer onboarding and support.
- Engaged in continuous integration practices to maintain high code quality.
- Collaborated with QA teams to ensure comprehensive testing of API functionalities.

★ ACHIEVEMENTS

- Led a project that improved API response times by 70%, enhancing user satisfaction.
- Received 'Innovator Award' for outstanding contributions to API development.
- Successfully trained over 20 team members on GraphQL best practices.
